

10,000 Trees for Charleston

Oak Tree Request Form

The tree you are receiving is a young Live Oak. These are beautiful canopy trees that add character and charm to any property. This tree was donated in support of the 10,000 Trees for Charleston initiative. In accepting this gift of a Live Oak tree you agree to plant, water, and care for it. To request your free Live Oak(s) please fill in the following information and send it to 10,000 Trees for review. We will be in touch shortly after receiving your request to set up a tree pick up time.

Thank you for your support!

Before you plant your new Live Oak:

- Locate an appropriate area for your new tree in the front or side of your property. Live oaks grow in full or part sun and much more quickly than most people think. At maturity the tree may be 60-70 feet tall with a 60 foot canopy spread. Leave room for your tree to grow.
- Have any underground utilities located by calling Palmetto Locating at (800) 922-0983. This is a free service.
- Take a look up. Are there overhead lines that will impact how your new tree grows and matures? By planning now for your mature tree you can make sure it grows to its full potential. Think ahead and leave 20-30 feet between your new tree and overhead utility lines along the street.
